Please note, past performance is not a reliable indicator of future performance. Investment returns for different time periods are available at gesb.wa.gov.au/investment_returns or by calling 13 43 72. Any returns greater than one year are annualised.

- 1 GESB Super and Transition to Retirement Pension: all returns are reported net of Indirect Cost Ratio (ICR), are based on transactional prices and include applicable taxes. Transition to Retirement Pension was incepted on 15 June 2017, so longer term returns are not available.
- 2 West State Super: all returns are reported net of ICR and are based on transactional prices. Care should be taken when comparing the investment performance of West State Super with other super funds. We do not pay tax on the investment earnings of the fund because of the untaxed status of the fund.
- 3 RI Allocated Pension and RI Term Allocated Pension: all returns are reported net of ICR, are based on transactional prices and are inclusive of franking credits.

Our Board's investment strategy

Our investment strategies aim to achieve returns over the medium to long term that are consistent with the stated investment objectives, depending on the scheme and investment plan. If you're a GESB Super, West State Super, Retirement Income Pension, or RI Term Allocated Pension member, you can choose from a range of investment plans, with varying degrees of expected risk and return.

Our Board has adopted low, medium and high-risk investment strategies to suit your needs. We ensure our investment approach adheres to the 'Prudential Guidelines for Investments' issued by the Treasurer of Western Australia.

For more information on our investment objectives, strategy and performance, please visit gesb.wa.gov.au/investment.

Notes

- a The Strategic Asset Allocation (SAA) and other information in this table is current as at 30 June 2020. The target allocations and allowable ranges may be subject to change during your membership. We may alter the SAA or the composition of individual asset classes from time to time, without prior notice. The current SAA was approved on 3 September 2019.
- b The cost of managing different investments varies, so the Indirect Cost Ratio (ICR) is different for each investment plan. For example, investment costs for the Cash plan or Conservative plan are lower than those for the Growth plan, as growth assets are typically more complex and expensive to manage. For more information, please refer to the 'Indirect Cost Ratios' section on page 4.

Fees

The fees for our schemes for the 2019/20 financial year are listed below.

GESB Super

The following fees applied to your GESB Super account:

- Account keeping fee - \$5.50 per month
- Administration fee - 0.20% p.a. of your monthly account balance
- Indirect Cost Ratio - please see the table below

West State Super

The following fees applied to your West State Super account:

- Account keeping fee - \$5.50 per month
- Administration fee - 0.04% p.a. of your monthly account balance
- Indirect Cost Ratio - please see the table below

Transition to Retirement Pension, RI Allocated Pension, and RI Term Allocated Pension

Your account has one administration fee, which is included in the Indirect Cost Ratio (see the table below).

This cost is not charged to you as a fee, but is deducted from investment returns before earnings are applied to your account. It covers the administration and investment costs related to managing the investments in the investment plan you have chosen.

For the 2019/20 financial year, the administration fee for Transition to Retirement Pension and RI Allocated Pension was 0.12%, and for RI Term Allocated Pension it was 0.28%. The remainder of the fee relates to the ICR.

Indirect Cost Ratios

Indirect Cost Ratios (ICRs) are actual historical figures and don't represent future ICRs. The ICR is an annual percentage fee that covers the cost of managing our investments. It includes a proportion allocated to risk reserves, and any performance fees paid to our external investment managers.

We review and adjust the ICR periodically to take into account prevailing investment expenses. The actual ICR can only be determined at the end of the financial year. The ICR is shown as a percentage of the value of the funds each year, and is deducted before the unit price is calculated.

Indirect Cost Ratio 2019/20 - % of the value of the funds

Superannuation Contributions Surcharge

The Superannuation Contributions Surcharge is an additional tax on an individual for certain contributions made to a super fund after 20 August 1996 and before 1 July 2005.

If you are a member of a constitutionally protected fund, such as West State Super, Gold State Super or WA Public Sector Pension Scheme, you are not required to pay any surcharge liability until you have left the fund or start receiving a pension. This means you may have a future obligation under the surcharge legislation. It generally affects members who earn higher incomes. For more information about how this may affect your super and the payment options available, please visit gesb.wa.gov.au/contributionsurcharge.

Notes

- a Each reserve must be debited with any costs incurred in relation to that reserve and credited with specified fees, investment return allocation and/or depreciation relating to that reserve. By following this operational instruction, reserves are kept separate to other money and assets.
- b Effective from 2019 financial year, the movement for "accumulation schemes surplus" is merged with the movement for "contribution to reserve". The table above retrospectively merges these two type of reserves movement.
