# Notes

The Strategic Asset Allocation (SAA) and other information in this table is current as at 30 June 2019. The target allocations and

allowable ranges may be subject to change during your membership. We may alter the SAA or the composition of individual asset classes from time to time, without prior notice. The current SAA was approved on 28 August 2018.

The cost of managing different investments varies, so the Indirect Cost Ratio (ICR) is different for each investment plan. For example, investment costs for the Cash plan or Conservative plan are lower than those for the Growth plan, as growth assets are typically more complex and expensive to manage. For more information, please refer to the 'Indirect Cost Ratio' section on page 4.

## **Fees**

The fees for our schemes for the 2018/19 financial year are listed below. Please note, we no longer charge service fees for transactions, such as Family Law splitting and full or partial withdrawals, effective 15 December 2018. Any service fee charged to you during the 2018/19 financial year will still appear in your June 2019 member statement and transaction history in Member Online. For more information, please visit gesb.wa.gov.au/servicefees.

#### **GESB Super**

The following fees applied to your GESB Super account:

- Account keeping fee \$5.50 per month
- Administration fee 0.20% p.a. of your monthly account balance
- Indirect Cost Ratio please see the table below

## **West State Super**

The following fees applied to your West State Super account:

- Account keeping fee \$5.50 per month
- Administration fee 0.04% p.a. of your monthly account balance
- Indirect Cost Ratio please see the table below

# Transition to Retirement Pension, RI Allocated Pension, and RI Term Allocated Pension

Your account has one administration fee, which is included in the Indirect Cost Ratio (see the table below).

This cost is not charged to you as a fee, but is deducted from investment returns before earnings are applied to your account. It covers the administration and investment costs related to managing the investments in the investment plan you have chosen.

As at 30 June 2019, the administration fee for Transition to Retirement Pension and RI Allocated Pension was 0.12%, and for RI Term Allocated Pension it was 0.28%. The remainder of the fee relates to the ICR.

#### **Indirect Cost Ratios**

Indirect Cost Ratios (ICRs) are actual historical figures and don't represent future ICRs. The ICR is an annual percentage fee that covers the cost of managing our investments. It includes a proportion allocated to risk reserves, and any performance fees paid to our external investment managers.

We review and adjust the ICR periodically to take into account prevailing investment expenses. The actual ICR can only be determined at the end of the financial year. The ICR is shown as a percentage of the value of the funds each year, and is deducted before the unit price is calculated.

#### **Superannuation Contributions Surcharge**

The Superannuation Contributions Surcharge is an additional tax on an individual for certain contributions made to a super fund after 20 August 1996 and before 1 July 2005.

If you are a member of a constitutionally protected fund, such as West State Super, Gold State Super or WA Public Sector Pension Scheme, you are not required to pay any surcharge liability until you have left the fund or start receiving a pension. This means you may have a future obligation under the surcharge legislation. It generally affects members who earn higher incomes. For more information about how this may affect your super and the payment options available, please visit gesb.wa.gov.au/contributionssurcharge.

## Notes

a Each reserve must be debited with any costs incurred in relation to that reserve and credited with specified fees, investment return allocation and/or depreciation relating to that reserve. By following this operational instruction, reserves are kept separate to other money and assets.

On 31 January 2017, the Treasurer approved guidelines which merged the 'minimum benefit guarantee reserve' and 'insurance reserve', creating the 'WSS government guaranteed payment reserve'. The table above retrospectively merges these reserves as required.
